

# Periskal News

No 40

**Periskal cvba. Your partner in River Information Services since 1990.**

Periskal News is a trimestral edition of Periskal Group. Periskal is the brand name of Periskal cvba.

## Dear customer,

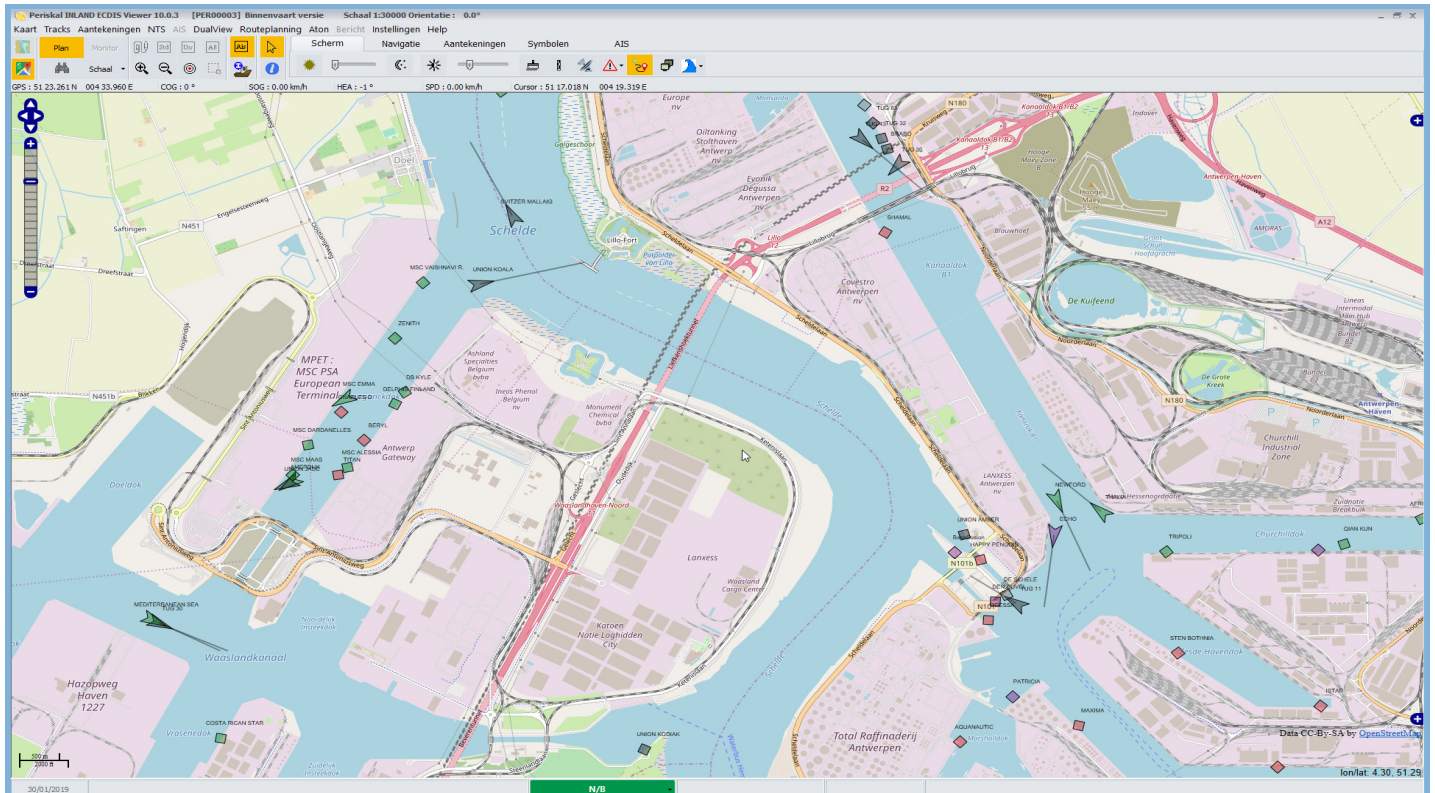

On this DVD you will find the spring version of the Periskal update.

We have received a lot of (positive) reactions upon our winter update. Inevitable some errors have been found and various suggestions for improvement have been made. Many clients received in the mean time a newer version with improvements. This latest version is running without problems and is used as a basis for this spring update. Together with this software version new charts and databases are distributed.

During the month of May a newer version of the Periskal Viewer will be released as a test version. When this version is found to be stable a roll out via internet update is foreseen. You will receive a message when this version is available for download.

Most important features and improvements In this spring update :

- Position of the ship on the screen is improved, taking care of the side panel
- Errors using BICS have been solved
- Improvement of Blue wave functionality, drawing functions
- Improvement of communication with certain types of AIS transponders
- Night colours and buttons improved
- Translations added
- Display window for KM enlarged
- Some buttons have been resized
- Automatic update via internet possible
- Automatic switching of navigation status possible
- New improved Notices to Skipper service, SPW from Belgium added
- Improved display of OpenStreetMap and AIS

OpenStreetMap

## Exhibition Maritime Industry in Gorinchem on the 7th, 8th and 9th of May

Periskal will be on the usual place, booth B112. We will show the latest software versions of Periskal, the Periskal ECDIS Viewer and the PC-Navigo from Noordersoft. We will show the PM-1 black box mobile transponder and the Periskal Pilot. The Periskal pilot is a big step towards intelligent and smart navigation.

The exhibition takes place in the 'Evenementenhal Gorinchem' and is open every day between 13h and 21h.

## Periskal srl certified as AIS installation company in Rumania.

Recently our Rumanian office has been certified as AIS installation company in Rumania. For those travelling on the Danube it is good to know that the Periskal PM-1 transponder is in stock there. The office is close to the Iron Gate 1 locks, in the city of Drobeta Turnu-Severin.

New charts of the Waddenzee  
Update channels of Nord Holland  
New charts of the German, the Dutch  
and the Belgian coast

Nord Holland

New charts of the German authorities in various areas:

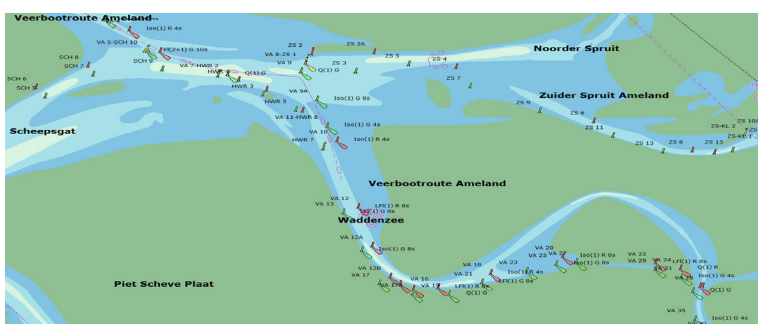

- Elbe
- Rhine
- Ruhr
- Untere Havel Wasserstraße
- Havel – Oder Wasserstraße
- Main

New charts of Austria

New charts of France

New charts of the Czech Republic

New charts of Romania

Ferry route Ameland

## How to install the update ?

- Insert the update DVD in the PC
- Automatically you will get the Setup window in which you can choose the language of the Newsletter. By selecting a language the Newsletter opens
- If the DVD does not open automatically, you can do this via Windows Explorer where you select the PV 10 DVD and then double-click install.exe
- By clicking on Setup the Periskal Viewer Setup will open
- The next window appears where you can choose the desired installation language
- Follow the instructions on the screen
- Restart your PC and then you can open Periskal Viewer
- Your charts will be installed automatically

We advise you to install the update during our office hours. Support: +32 3 669 57 36
